All-In-One Motorcycle Security System

Model Nos: RT201 & RT202

4 MAIN COMPONENTS

- GPS Locator – To track and monitor motorcycle's location, movement and direction with pinpoint accuracy.
- ALARM Features – Advanced alarm features and sensors to deter any acts of crime on your motorcycle,
- GSM Capability – Allows for 2-way communication between you and your motorcycle.
- IMMOBILIZER – Disables Engine via ignition line and fuel supply.

Equip your motorcycle with this All-In-One Motorcycle Security System (Model Nos.: RT 210 or RT 202). It will be the only Security System your motorcycle will ever need. Our equipment gives you the ability to CONTROL and MONITOR your motorcycle from anywhere in the world via your own personal mobile phone.

- Send SMSes to your motorcycle to arm/disarm system or just to check the status of your motorcycle,
- Receive SMSes when your motorcycle's alarm is triggered by vibration, movement or any acts of CRIME e.g. theft of parts, security system tampered or engine hot-wired.
- Track/Monitor motorcycle's location, speed, direction through SMS,
- Hidden microphone and 'SOS' Button,
- IMMOBILIZE your motorcycle through SMS or call. (for cases of theft).

In addition, GPS Tracking of your motorcycle can be done via Revtech Asia Automation's SERVER. Our Server will immediately translate the coordinates of your motorcycle's position into real-time street addresses and SMS the location to your mobile phone.

Prior to installation, a preliminary investigation and analysis will be done to ascertain the current security features of your motorcycle. It is important to note that our equipment's capabilities may vary based on your motorcycle's security features.

Our All-In-One Motorcycle Security System does not require monthly subscription charges. All REVTECH equipment comes with a 1-year warranty effective from the date of installation. Personal particulars will be noted for record purposes.

For Server Usage and any other additional services, admin charges may apply accordingly.
